## READYING FOR TELESCOPE INSTALLATION

In Penticton to supervise installation of a \$500,000 radio telescope site are Col. Ernest Denison, left, and Dr. Jack Locke, who will head the observatory staff next fall. Here the two men check a map of the site, chosen after a nation-wide

search for exactly the right conditions. The telescope will listen to radiations from space, enabling astronomers to chart the heavens more accurately.

## Radio Telescope 'Ear' To Take Pulse of Space

By BILL STAVDAL  
(Herald Staff Reporter)

Filtering down from the gulfs of space, radiation is telling the story of our universe.

Where interstellar dust clouds smother light from distant stars, radiation cleaves through unhindered to the far corners of the galaxy.

In our corner, more and more electronic ears are being tuned to the hum and crackle of the universe. And 15 miles south of Penticton another such ear will soon be listening.

It is a radio telescope — an 84 foot dish which can take the pulse of space.

It is an ear, not an eye. As the

turn of the earth dims the stars and sends most astronomers home to bed, the attendants of this instrument will start their day.

When dust and cloud blind the eyes of optical telescopes, this ear will listen undisturbed.

"Why?" "Simply curiosity about our environment," says Dr. Jack Locke, who will head the six-man listening post when it is completed late this year.

"We're plugging away at the problem of what our universe consists of," explains the 37-year-old astrophysicist who arrived in Penticton Sunday.

With Col. Ernest Denison, chief of building and property manage-

ment for the Department of Mines and Technical Surveys, Dr. Locke will supervise unloading of 25 carloads of his new baby—the White Lake radio telescope.

It was two years ago that Dr. Locke set up his instruments at White Lake to take the readings which ended a 12-month, Canada-wide search for the telescope's site.

The requirements were many. Dr. Locke, head of the Stellar Physics Division of the Dominion Observatory, was looking for a static-free howl amid high mountains.

The site had to be far away from high tension lines and high-powered radio transmitters which could hopelessly clog his sensitive radio telescope with static.

The spot had to have a light snowfall and dry air. (Moisture could short-circuit the instru-

ment.) It had to be accessible, and close to a pleasant town where hard-to-find technicians could live contentedly.

OBJECTIONS LISTED The east was ruled out — hills too low, and too much interference.

The far north was eliminated — not enough of the southern sky was visible.

E.C.'s west coast was crossed off — too much wet, heavy snow.

**Council Orders Sewer Contract To be Signed**

Work on the first portion of Penticton's one and a quarter million dollar sewer project is getting closer to starting date with the contract authorized to be signed by city council last night.

City Clerk H. H. Andrews and E. R. Gaylor, superintendent of works, were authorized to finalize negotiations between the city and Penticton Sawmills and Penticton Golf Club regarding easements for sewer lines across their properties.

The project, for which G. W. Ledington & Co. has the contract, is for a line from the present disposal plant to the new plant site with a connecting line to the present sewer system at Hastings Street.

# WHIMSTER ASKED TO RESIGN COUNCIL POST

## DISTRICT OFFICIALS JOIN UPROAR

## Chant's Gangster Tag Shocks B.C. Labor

District labor leaders have joined a province-wide uproar started Monday in the legislature when Works Minister W. N. Chant accused some factions of the labor movement of being connected with gangsterism.

Mr. Chant charged that union leaders "in some quarters have replaced bootlegging, the rackets and gambling as the reorganized domain of the hoodlum and gangster."

In Penticton, A. L. "Okie" Kanester, business agent for the Federation of Fruit and Vegetable Workers' Unions charged "a completely irresponsible attitude on the part of the provincial government."

The government seems to be setting the stage for anti-labor legislation, Kanester said.

"There is no labor leader who doesn't realize there is some dishonesty in organized labor," he admitted.

"But you can find more convicted criminals among bankers than in labor unions."

Dan Radford of Vancouver, Canadian Labor Congress representative for B.C., added his voice.

"We are shocked to hear that a supposedly responsible minister of the government would say these things, knowing full well he can't prove them," stated Radford.

"There has never been any proven graft in B.C. labor," Radford added.

Jack Mertz, carpenters' local president, indicated he doesn't think much of Mr. Chant's statements.

"We all know what has happened in the States," said Mertz this

WORKS CHIEF CHANT ... raps labor movement

morning. "But you can't apply that to Canadian unions."

In Victoria a storm of opposition protests followed the charge and deputy-speaker Frank Richter resorted to gavel-banging be-

fore order was restored.

Mr. Chant told the House that labor feels it has the right to criticize governments. "but as soon as we give a little constructive criticism for them they object."

John Squire (CCF—Alberni) retorted: "What a lot of nonsense."

Tony Gargrave (CCF—Mackenzie) demanded if the minister was speaking of unions in Canada, and asked if he were reflecting on members of the House who are trade unionists.

"I was not reflecting on any member of this house," Mr. Chant said. "If the cap fits, wear it."

In other, less clamorous business, Harold E. Roche (SC—North Peace River) suggested a system of certification for garage mechanics.

"It is time this province had legislation ... for the control of mechanics in garages," he said during debate on the budget.

"I know of many of these boys who are hardly able to find the motor in a car ... yet they are able to charge \$5 an hour for their services."

## Traffic Chief Hits Council Interference

Orders from city council that more attention be paid to parking meter violations for the next month, prompted a protest from Walter Cousins, city traffic superintendent, last night, that council was interfering with his running of the traffic department.

"I think it's up to me, as head of the department, to suggest how our time should be spent," Mr. Cousins said. "If council is not satisfied they should ask me to turn in my uniform."

Sparking the flare-up was council's acceptance of a traffic committee recommendation that city parking meters must be checked a minimum of three times daily, six days per week for the next month.

Mr. Cousins pointed out that during these low traffic months there were many other duties which traffic department employees were catching up on and council's directive would mean that this work must be left in abeyance.

"This directive tells me what I am to do," Mr. Cousins said.

## Kelowna Pack All Star Team

KELOWNA (CP)—The defending champion Kelowna Packers got the biggest representation as the Okanagan Senior Hockey League's all-star team was named today.

The Kelowna players are on the two teams chosen by team coaches and managers. Packer coach Jack O'Reilly was named all-star coach.

The two teams are: First team—Goal: Dave Gathrum, Kelowna; defence: Tom Steyck, Vernon, Pat Coburn, Penticton; forwards: Jerry Prince, Kamloops, Bill Hryciuk, Kamloops, Gerry Goyer, Kelowna; coach: Jack O'Reilly, Kelowna.

Second team—Goal: Ken Kuntz, Kamloops; defence: Harry Smith, Kelowna, Ted Lebeda, Kamloops; forwards: Moe Young, Kelowna, Russ Kovalchuk, Kelowna, Odie Lowe, Vernon; coach: Billy Hryciuk, Kamloops.

## Peace, Columbia Power Will be In Use by 1975

VANCOUVER (CP)—The president of Peace River Power Development Company limited said here Monday hydro resources of the Peace and Columbia rivers in British Columbia will be harnessed by 1975.

W. C. Mainwaring, former president of B.C. Electric Company limited, said in an interview that the company is in use within 10 years.

## Gayfer Suspended For Third Time

Mayor Charles E. Oliver, stormy petrel of civic politics in Penticton, dropped yet another bombshell this morning when he suspended E. R. Gayfer, city superintendent of works, for the third time in three years, and asked Ald. W. H. L. Whimster to resign.

Climaxing last night's wrangle at city council meeting over the pending retirement of E. C. Spiller, assistant superintendent of works, the mayor said he had taken his action because of "the very frustrating way of doing business" that he was confronted with.

"It is my opinion that your decision in regard to certain civic matters are prejudicial to the best interests of the taxpayers," the mayor declared in his letter to Ald. Whimster. "I hereby request that you resign as alderman so that the vacancy may be filled by someone who would approach problems of civic government with an open mind."

"I'm NOT RESIGNING" "I haven't the faintest idea of a reason for this request," commented Ald. Whimster. "I have nothing else to say except that I am not resigning, period."

Ald Whimster was among the aldermen last night, speaking against the mayor's request to let Mr. Spiller continue on the permanent staff for supervision of the Number One Dam project and installation of a booster pump on the high-line. The aldermen contended that although Mr. Spiller could be retained on a temporary or consultative basis, he should not be kept on permanent staff being past the maximum retirement age recently set by council.

Regarding Mr. Gayfer's suspension, this was precipitated by the mayor's contention that the city superintendent had disregarded a recommendation from D. K. Penfold to order a certain pump for the hi-line after calling for tenders. Mr. Gayfer pointed out that a pump would be ordered after some further investigation that was felt necessary.

Mayor Oliver this morning said he had nothing to add about the reasons for the suspension beyond claiming that Mr. Gayfer had been instructed to order the hi-line pump and had not done so.

W. H. L. WHIMSTER ... asked to resign

E. R. GAYFER ... suspended from post

## Council 'Upsetting Work,' Mayor Says

Mayor C. E. Oliver last night charged his 1959 council was "dedicated to upsetting the work of the past two years" as he made another unsuccessful attempt to have E. C. Spiller, assistant superintendent of works, remain on the city's permanent staff even though he is past the recently-set maximum retirement age.

Declaring that he no longer had the majority support of council, Mayor Oliver charged that the voters had made a mistake in the men they elected last December.

To Ald. W. H. L. Whimster, who has been among the most forthright in opposing Mr. Spiller's retention on permanent staff for this year, the mayor declared: "As a fruit grower, I consider that you're a great disappointment on this council."

At the same time as he attempted to reopen the retirement controversy, in an effort to keep Mr. Spiller in charge of the Penticton No. One Dam project and installation of a booster pump on the high-line, Mayor Oliver repudiated E. R. Gayfer, superintendent of works, for allegedly countermanding a recommendation from D. K. Penfold, the city's consulting engineer on water problems.

The mayor claimed Mr. Penfold had recommended purchase of a certain type of pump for the high line and Mr. Gayfer was holding up the order on his own.

SPILLER DENIES CHARGE This was denied by Mr. Gayfer who told the mayor: "This is something you'll have to discuss with Mr. Penfold and myself at the same time."

Mr. Gayfer reminded the mayor that his department was given six months to install the pump and only two months have gone by yet. He said that although tenders have been called and opened, no contract for the pump has been awarded yet because several factors were still being investigated among them whether pumping from the lake would still be unnecessary after the high-line pump was installed.

"I don't agree with what you've done," declared the mayor. "I don't think you know what we have done. Your Worship," countered Mr. Gayfer.

POINTLESS TO HICKER Ald. P. E. Paula then observed that if there were a directive from Mr. Penfold about ordering a certain pump, then it should be presented to council in writing. Council members agreed that until there was some recommendation in writing before them, it was pointless to spend time in "hickering."

"What are you going to do about Mr. Spiller," the mayor then asked.

Ald. Whimster replied that he could see no justification for changing council's previous stand that Mr. Spiller must retire from permanent staff but could be retained on a temporary or consultative basis for any specific job if council wished.

If other council members repeated their views that no man was so essential that he should be retained on permanent staff past the maximum age of 70, Ald. P. Bird, however, sought to have Mr. Spiller exempted from the retirement policy since the mayor or felt he was so essential to his waterworks plans, but Ald. Bird's motion failed to get a second.

"The only thing wrong is that I no longer have a majority on council," Mayor Oliver said. "It just happened that the public made a mistake in voting, that's all."

## Sommers Trial Claimed 'Invalid'

VICTORIA (CP) — Lawyer J. R. Nicholson argued in B.C. Court of Appeal here Monday that former forestry minister Robert Sommers was not an official of the crown at the time he was alleged to have taken bribes.

And if this is upheld by the court, he said, all the convictions in the marathon Sommers bribery-conspiracy case "go by the board."

He made the claim on the first day of the appeal by Sommers, H. Wilson Gray, Pacific Coast Services Ltd., and Evergreen Lumber Sales Ltd., against conviction.

Gray and Sommers were jailed for five years in Vancouver last November, and the companies were fined, in connection with a conspiracy to obtain forest management licences by bribery.

Sommers and Gray are now out on bail.

At the start of the appeal, Angelo Branca, Q.C., argued that all the bribery charges against Sommers were invalid, because a two-year period of limitations had expired before the charges were laid.

Mr. Branca said he would deal with only one point of law instead of the several outlined in his notice of appeal.

This was that the bribery charges were not laid within two years of the offences involved. Therefore, under the old Criminal Code of Canada, they were not valid.

AGREE ONE POINT The judges (Mr. Justice Bird, Mr. Justice Davey and Mr. Justice Sheppard) asked if this meant he was abandoning other points of his appeal.

**'NO HAIRBRAINED PUBLICITY STUNT'**

Landlubbers to Sail in Tank

MONTREAL (CP) — Three Montreal landlubbers plan to sail across the Atlantic this spring in a 3,000-gallon sealed water tank.

The craft, named the WT (for water tank) Digenes will use the Labrador current and the Gulf Stream as a means of propulsion.

"This is not some hair-brained publicity stunt," says skipper Richard Melrsch, "but a serious undertaking by three men who know nothing about sailing but love the sea."

The other crew members are Robert Frantz, 30, who will act as cook, and Albert Barth, 30, who will be radio operator.

Melrsch said he got the idea while working in the Arctic and reasoned that a landlubber would be safest in a tank.

The tank, 18 by six feet, is being adapted for the sea in a

Montreal construction yard. A hatchway is being opened on top and cement ballast being poured into the bottom.

PIPPES FOR AIR The hatch is to be made watertight and a system of pipes at both ends will supply fresh air. The craft will be stocked with 400 pounds of canned food, sleeping bags and other supplies. It will contain army surplus radio equipment.

The trip will take an estimated two months and they don't know where they'll land — "but Europe is big enough to hit."

The trip hope, to ship the

tank to St. John's, Nfld., by April's end. There they'll need a tow about 20 miles into the Labrador current.

They reason that the current will carry them 300 miles south of the Gulf Stream which will in turn sweep them to Europe.

The trip will take an estimated two months and they don't know where they'll land — "but Europe is big enough to hit."

The trip hope, to ship the

## LONDON'S YACHTING CENTRE

A direct result of the world-wide demand for British sailing craft and boat equipment has been the establishment of London's first Yachting Centre — opened recently by the noted British yacht designer, Mr. Uffa Fox, at Gardiner's (The Scotch House) retail stores. Mr. Fox is seen here at the official opening, enjoying a joke with eighteen-year-old Pat Hedaux, while seated in a new sailing dinghy of his own design — the 9-foot "Duckling".

## Canada Likely Will Agree to Basing U.S. Planes in Arctic

By DAVE MCINTOSH  
Canadian Press Staff Writer  
OTTAWA (CP) — Canada can expect a request from the United States to base fighter planes in the Canadian Arctic, authorities here say.

However, no request has yet been received and is not likely to be until the American 2,000-mile-an-hour F-108 interceptor is in production. The plane is still in the development stage.

When and if the request is made, Canada's reply probably will be affirmative but that the interceptors should be manned by RCAF crews.

U.S. Air Secretary James H. Douglas and Gen. Thomas D. White, chief of the U.S. Air Force testified last month before the U.S. Senate armed service committee that the F-108 will be able to "police" the Distant Early Warning radar line in the Canadian Arctic.

**NEED CANADIAN BASE**  
The new interceptor could patrol the eastern and western ends of the DEW line from American

## Industrial Editors Told To Speak Boldly

MONTREAL — (CP) — Canadian industrial editors Monday night were urged to put more fire in their publications by Ross Gillespie, vice-president of the International Council of Industrial Editors.

"The industrial editor — the businessman's communicator — has been called the meekest man in town," he told the Montreal chapter of the Canadian Industrial Editors Association.

"He must get up and shout. He can help in the communication of ideas of understanding throughout the world and work toward clearing up the wordy bureaucratic communications so people can understand what they read."

## Navies Join in Anti-Submarine Warfare Exercise

SAN DIEGO, Calif. — (AP) — Canadian surface ships and planes joined ships of the United States 1st Fleet Monday in a four-day exercise in anti-submarine warfare described as the most formidable task facing North America's navies.

The exercise, termed Skynet, will pit a force of ships and planes against submarines trying to penetrate a 600-mile barrier off southern California.

Vice-Admiral R. E. Libby, 1st fleet commander, said navy air reservists are taking part for the first time in the exercise.

## Secretariat As Watchdog Of Gov't Activities Urged

TORONTO (CP) — The Gordon committee on government organization in Ontario has wound up its public hearings with a novel suggestion to mull over:

There should be a secretariat to act as watchdog over provincial government activities on behalf of the Ontario legislature.

The suggestion came Monday in a brief from the Ontario CCF which said:

"It is our contention that the development of the legislature's machinery of supervision and control in Ontario has not kept pace with the development of government administration."

**SERVANT OF LEGISLATURE**  
CCF president Carrol Coburn

## Cardinal Urges Greater Esteem For Rural Life

MONTREAL (CP) — The riches of Canada's rural civilization are in danger of disappearing because of "the one-sided development of our economy which gives too large a part to the interests of industrial capitalism," Paul Emile Cardinal Leger said Monday night.

The riches of rural life included "a great capacity for work, a sense of responsibility, family duty and neighborliness, and a feeling of dependence on God," the Roman Catholic archbishop of Montreal told the Agricultural Institute of Canada.

There was too great a difference between life in the city and the country, he said.

"Agriculture has been considered by many as inferior to industry and lack of equilibrium in our economy produces many problems which threaten the future of rural civilization."

"Those who till the land are considered inferior, their revenues are greatly inferior. They are tempted to leave the land, which upsets the country's economic stability."

Greater esteem for rural life must be promoted, private family enterprise must be encouraged and rural districts modernized.

"The elite of our agricultural economy must make an effort to maintain their contact with the other professional institutions of our nation, because the harmonious development of society could not be accomplished with good intentions alone."

## Six Men on Tanker Die of Alcohol Poisoning

PORT SAID, Egypt — (AP) — Six crew members of the 8,328-ton Norwegian tanker Brittansea died Monday from alcohol poisoning.

Agents of the ship said 26 crew members became intoxicated after drinking alcohol aboard the Brittansea.

One died aboard ship and the others were taken to a hospital where five died. Agents said the 20 others were out of danger. The tanker is on her way through the Suez Canal en route to Bahrain in the Persian Gulf.

## If Ever the Vees Needed Fans, They Need Them Now

Penticton Vees will go into their first playoff game tomorrow night in Kelowna greater underdogs than they have ever been before. This year the playoffs represent more than a crucial series; they mean life or death for senior hockey in Penticton.

Throughout the season the Vees executive has been struggling against severe financial handicaps. The players, showing far more spirit than most fans appreciate, agreed to take pay-cuts to try and keep the club solvent. But even with these the grim toll of falling attendances made it extremely difficult to continue. Now, with the season almost at an end, the Vees face one of the most powerful clubs ever gathered in the Okanagan, to fight for a chance to recoup at least some of their faltering fortune.

At any other playoff time the chief problem would be "Can we beat the Packers?" This year the main problem has to be: "Can we hold on long enough to gather enough money to pay our bills?"

If the Vees can hang on — and want of trying will not be a reason for any failure on their part — and the fans give them the support they deserve, the Fall of 1959 will see senior hockey back here. If the fans fail to support their club, then we can say goodbye to senior hockey for a long time.

It has been said that the disappearance of senior hockey would be a good thing. Maybe it would, though we doubt it very much.

Not too many seasons ago we saw senior hockey lose its place in a city somewhat similar in size to Penticton. The theory was that intermediate or junior hockey would cost less and

would therefore automatically be more successful as a financial operation.

Nothing could have been further from the truth. For years fans had been conditioned to seeing Senior A hockey. When the switch took place the first two or three games pulled good crowds. From then on there was a steady downward spiral until we can recall Saturday night games between Coy Cup contenders with less than 50 people in a 2,000 seat arena. We think the same thing could happen here.

Theories are fine, but in actual practice fans do not like to drop from a top category to a lower one. If the Vees vanish, so will top quality hockey. And once the Vees lose their senior A status Penticton will find it more than difficult to regain what they once accepted as their right. Without the Vees we know, the OSAHL will collapse.

It may be difficult for fans to work up enthusiasm for a series in which the dice is so obviously loaded against the Vees, but there are two things to remember.

Firstly their investment in the playoff series against Kelowna could pay tremendous dividends for next season's hockey club. Secondly, the Vees have been underdogs before and surprised not only their opposition but the entire nation.

Possibly this is too much to expect this time, though with fan support miracles can happen. Without fan support the Vees are doomed before they start, not only for the semi-finals but for the future as well.

We do not think it too much to ask that every man and woman who ever had a love for Canada's national game be at the Arena Friday night.

NEW DEPARTURE AT THE OTTAWA AIRPORT

### REPORT FROM THE U.K.

## Income Tax Cut Favored

By M. MCINTYRE HOOD  
Special London (Eng.)  
Correspondent for The Herald  
LONDON — The people of Britain have been telling the Chancellor of the Exchequer, Mr. Heathcoat Amory, exactly what they want in the budget which he will be placing before the House of Commons in April. And above everything else, they want a reduction in income tax.

One of the leading British newspapers carried out a public opinion poll on this question during a period of a week, and the answers received were quite emphatic. A single question was put to the public and it was this: "If it were possible to ease taxation in the next budget, which

ONE tax would you like to see reduced?"

#### RESULT OF POLL

Of the answers received, 49 percent wanted a reduction in income tax in preference to any other. Those who put a reduction in purchase tax first represented 36 percent of the replies.

Other answers probably representing some special interests and preferences, were listed as follows:

Tobacco, beer and spirits taxes, 4 percent; gasoline tax, 3 percent; Miscellaneous taxes mentioned, 1 1/2 percent; entertainment, road, and property tax reductions were each favored by only one percent. Only three per-

cent of the people questioned had no opinion to express.

#### WAGE AVERAGES

Probably influencing the preference for income tax reductions is the low average rate of income in Britain, as compared with Canada, and the fact that the amount of the statutory tax exemption is very small.

The Ministry of Labor reports that at the end of 1958 the average earnings of some 7,000,000 manual workers in Britain were £10 16s 9d a week. This works out at approximately 29 dollars a week. For men, the average weekly wage was £12 16s 3d a week, or \$34.60. In the manufacturing industries, the average was slightly higher at £13 3s 6d, amounting to \$35.60. For women, however, the average weekly wage was £6 13s 11d (\$18.10), with the average in manufacturing jobs a little higher, at £6 14s 5d, or \$18.20 a week.

The catch, in the public mind, is that these wages are all BEFORE and not after, deduction of income tax, which for the top part of the income can come within the category of 42 1/2 percent of 8s 6d to the pound.

## Loudspeaker-Ridden Tour Of Red China Described

Editor's Note: Following is the first in a series of reports on Communist China by Dr. Sripathi Chandrasekhar, director of India's Institute for Population, who has recently returned from extensive travel there. His stories, written exclusively for The Associated Press, represent the views of a widely known and neutral scientist.

By Dr. Sripathi Chandrasekhar  
Copyright, 1959, by The AP  
I spent about six weeks in Communist China and travelled widely by plane, train, car and jeep, visiting a dozen major cities, a few villages and four communes.

I travelled as far as Harbin in old Manchuria in the north, Lanchow in the west, Shanghai in the east, and Canton and Shum-chun in the south.

My interests covered universities, colleges and schools, hospitals and clinics, factories, agriculture, population and vital statistics, and the country's family planning program.

China occupies an area almost equal to the whole of Europe and her people number today a little more than 650,000,000, or about a quarter of the world's population.

This huge nation has embarked upon an experiment which seeks to accomplish in one day what others normally take 20 years to do.

Even the most casual traveller in Red China cannot but be struck with five aspects of the people and their economy. These are dress, the continuous din of broadcast propaganda, the country's extraordinary cleanliness, the tremendous labor effort, and the new position of women.

Take dress. Everyone, men and women of all ages, is dressed in blue trousers and buttoned-up coats with collars like the uniform of party chairman Mao Tse-tung. To a newcomer, men and women look almost alike, for all the women have taken to short-length bobs.

This blue uniform is only an external symbol or manifestation of the regimentation of the people's inner life and thought.

LOUDSPEAKERS ARE

The second thing no one can

escape is the ubiquitous radio and the loudspeaker. This started when I boarded the train at Chumchun, the frontier station, taking me to Canton. The voice blares away at you in the bus, in the train, in the trolley, in sleepers and dining cars, on street corners, in villages, towns and cities — just about everywhere.

And what does this radio pour out day and night? Everything the government approves.

This is the most important medium for approved news — news of industrial output, how to make a smelter, how to defeat

the American "imperialists," how to be a good Communist, how to be neat, how to denounce the rightists, how to behave in a train, how to kill a rat or a sparrow, how to cook a sweet potato — and a thousand other things, interspersed with traditional Chinese opera with its deafening gongs and cymbals and marching songs.

The reason behind the loudspeakers is really a simple one. Literacy is not widespread and the printed word is relatively ineffective. The only way to reach the citizen is via the loudspeaker which cannot be controlled and cannot even be turned off.

## Learn Signs of Hearing Loss

BY HERMAN N. BUNDESEN, M.D.

Does your child have hearing trouble?

Before you answer, think a moment. Is your youngster short-tempered, does he prefer to play alone instead of with groups of children, does he intentionally break up their games?

IS HE UNPREDICTABLE?

An unpredictable personality may be an indication of hearing difficulties. An estimated 5,000,000 children throughout America suffer hearing impairments. Unfortunately, thousands of these children fail to develop properly because their hearing loss has not been discovered.

You can't expect your youngster to come to you and complain that he can't hear well. It is up to you, the parents, to detect any loss of hearing and to report it to your doctor promptly.

UNDETECTED DEAFNESS

It is not the loss of hearing that is so bad. That might be treated effectively if found in time. It is undetected hearing loss that causes so much unhappiness.

There are many signs that might indicate hearing difficulties. If your child doesn't appear eager about his school work, maybe hearing trouble prevents his complete participation in classroom — and homework, too.

OTHER SIGNS

If he is mean to pets, if he deliberately disobeys and appears

stubborn, it might be a good idea to have his ears checked.

Of course, there are many more obvious clues. Hearing impairment might be suspected if your youngster:

Seems more aware of movement than sound.

Growls or has a strained expression when listening.

Watches a speaker's face, especially his lips.

Becomes inattentive.

SIMILAR SOUNDS

Confuses words that sound alike.

Has poor articulation.

Develops an unusual quality to his voice.

Has phonetic difficulties in spelling.

With so many symptoms to work with, it would seem that all parents would be well aware of their children's hearing abilities.

But they aren't.

QUESTION AND ANSWER

W.L.M.: What is a fungus infection? If allowed to progress without treatment what may be the result?

Answer: A fungus infection is an infection with an organism of the yeast and mold family. It may be local, as on the skin, or may involve internal organs such as the lungs, brain or kidney, where it can be very serious. Some untreated fungus infections remain mild; others can get progressively worse. In any case, a doctor should be consulted.

### OTTAWA REPORT

## MPs Show Their Initiative

By PATRICK NICHOLSON

A fine example of what a member of parliament can achieve for his constituents, with a little imagination and drive, has just been demonstrated here by Hubert Badanai, Liberal member for Fort William, and by Douglas Fisher, CCF member for Port Arthur.

The twin cities at the head of the Great Lakes were facing a serious employment problem. One of the major local employers in the Canadian Car Company's plant in Fort William, which employs now around 800 workers. Perhaps three-quarters of these live in Fort William, and the rest in Port Arthur. So when there was talk that the plant might be closed down, consternation was felt in both the lakehead cities.

At present Canadian Car is making buses and tractor trailers. Contracts now in hand will be finished by the late summer of this year. It was assumed that there would be no more work for the Fort William plant and the

company proposed to merge all its operations in its Montreal plant.

At that stage, the energetic MP Doug Fisher began to organize a high-level "March in Ottawa". Last month they arrived: MPs, MLAs, Mayors, Union Leaders and representatives of various groups in the cities. They were received by Hon. Howard Green as acting Prime Minister, who sympathetically listened to their story.

#### GOVERNMENT STEPS IN

It did not seem out of place to socialist Fisher to dump the problem into the lap of big government. It is part of the modern heresy to which his party subscribes that the federal government is responsible for handling every woe — and alleviating every woe — to which any citizen may fall heir in these days of the welfare state. That is a nice cosy little thought, even though I do call it heresy; the only trouble with it is that our federal government is not a gold mine without a bottom — it is only the distributor of the sum total of the taxes which it is forced to collect from you and me and the Fort Williamites and the Port Arthurians.

But that is getting away from bobcats. Mr. Howard Green, having listened with a sympathetic ear to the deputation from the lakehead, later came up with what may be an excellent life-saver. The government, he said, has given the Canadian Car Company instructions to push ahead with further development of the amphibious tracked personnel carrier called "The Bobcat".

Apparently this vehicle offers promise of being an effective defence weapon, and the federal government is prepared to consider placing a substantial order for it. So too may other governments. It will be some months yet before the Bobcat has been fully tested and made ready for mass production; there may therefore be an employment gap when Canadian Car finishes its present contracts. But the suggestion is that the government will give the company a big order, which will provide labor for even more workers than at present, at the Lakehead plant.

#### WHAT NEXT?

Mr. Badanai tells me that the plant employed 6,000 workers during wartime, making frames for military aircraft. If Canada should ever again have a considerable aircraft industry, the Fort William plant could become ten times as busy as today, making aircraft components.

Meanwhile Mr. Badanai is thinking rather in terms of beating swords into ploughshares. Massey-Harris might take over the plant, and manufacture in it agricultural implements which Canada could then give to our Colombo Plan beneficiaries, instead of our present gifts of cash and wheat.

Or perhaps Massey-Ferguson might purchase manufacturing rights from the big Perkins Diesel motor works in Britain — the largest of its kind in Europe — and make diesel motors in the Fort William plant; if not transplant Perkins to the Lakehead, Mr. Badanai, who helped lead "The March" is now working on this.

Thus while around 22 per cent of the labor force at the lakehead is currently out of work, and several hundred more sense their jobs are threatened, the initiative of the two local MPs may bring temporary alleviation thanks to action by the government, and further may foster long-term employment prospects thanks to action by private enterprise.

1018 Churchill Avenue

### IMPRESSIVE RECORD

Sir:—

I was very interested in the article on front page of Friday's issue, in that my record is so similar to Mr. Thompson's.

I served in 4th Hussars (1900-1907) in South Africa and India. I also served overseas with Canadian Infantry in World War I, and in the same Company R.C.C. Signals, as Radio and Landline operator, as Dave Thompson, in World War II.

ROBT. A. HINE

Yours truly,

P.S.—The 4th Hussars is Sir Winston Churchill's original regiment which he joined at Bangalore, India in 1895.

## THE LIVING MYSTERY OF THE ROCKIES

How did they get there? When were they created? And what do the Rockies really mean to our country? Here, two well-known Canadian writers and a distinguished Canadian painter join in a fresh look at our greatest natural wonder. In their own individual ways, they seek out the hidden heart of the Rockies — and their impressions make exciting reading.

Read about it in...

Telling the story of Canada to Canadians

AT YOUR NEWSSTAND TODAY

## The Impoverished Arts

The United Kingdom in its tight little space with heirlooms of wealth and conquest preserved for all to see has been far kinder to the arts than Canada. Our vast acres, our newness, our inevitable concern with the plow and the development of these resources we have heard so much about for so long have militated against not only the collection of art but the consciousness of the arts; to appreciate art one must be exposed to it and Canadian opportunities have been lamentably few.

So it is unjust to argue, as some do, that Canada should attempt to keep up with the artistic Joneses, especially the United Kingdom.

That said, the Canadian contribution to the arts by Dominion, provincial and municipal governments remains miserably small.

In London the other day the House of Commons was told it was proposed to increase the purchase grants to national museums and galleries by 2 1/2 times to £335,000. Direct government

expenditures on the arts will be nearly £7,000,000 this year.

That £7,000,000 will be from a total national expenditure ranging around £4,500,000,000 and of course it will not all be for paintings but will cover such items as assistance to the Covent Garden opera to a maximum of £500,000 a year.

The main estimates for the National Art Gallery in Canada for 1958-59 total \$658,600, including a modest \$100,000 for the purchase of new works. To that, under the heading of "arts," can be added certain expenditures of the Canada Council financed by the government and other grants in various categories. But if the total Canadian national contribution to the arts exceeds \$3,000,000 annually we would be surprised.

So it can be worked out that the United Kingdom spends £1 in £100 on the arts and Canada spends \$1 in \$2,000. While we may not be a notably art conscious nation, we are hardly as unappreciative or as unwilling to learn as all that.

—The Ottawa Journal

### BIBLE THOUGHT

It is good for me to draw near to God.—Psalms 73:28.  
Some people fear a policeman, some fear God.

## FOUNDER'S DAY OBSERVED BY IODE

Diamond Jubilee Chapter, Imperial Order Daughters of the Empire, commemorated Founder's Day with a smorgasbord supper followed by an entertainment last evening in the Glangary Room at the Hotel Prince Charles. Guests for the occasion were members of the recently organized Golden Anniversary Chapter, IODE. Among officers of the hostess group present to welcome the many

attending the annual celebrations were: front, left to right, Mrs. M. H. Wright, first vice-regent; Mrs. Kenneth Davenport, regent, and Mrs. John Erldenson, treasurer. Standing in back are, Mrs. H. E. Chalmers, second vice-regent, and Mrs. Earl Swanson, assistant secretary.

## IN and AROUND TOWN

### PENTICTON

Miss Elizabeth Edwards, librarian at the Dominion Experimental Station at Summerland, has been transferred to the Science Laboratory at Western University in London, Ontario. Miss Edwards, a resident of Penticton, plans to leave the Okanagan for her new position at the end of February.

Miss Mary Ellen Walker, former nurse supervisor at the Penticton Hospital, returned to Riverton, Washington, on Saturday after visiting in this city with her mother, Mrs. Tony Walker, Papineau Street.

The Jordanettes of the Penticton United Church Women's Federation will meet tomorrow evening at the home of Mrs. D. W. Forrest, 1228 Manitoba Avenue, at 8 p.m.

Mrs. Albert Doerksen, Miss Esther Wall and Miss Jean Gustavson were co-hostesses at the home of the former entertaining at a pretty bridal shower for Miss Joan Turnbull. As the honoree will make her future home on a farm in Alberta, the many attractive gifts presented to her by the 30 guest present were contained in a replica of a red barn. Refreshments were served following a social hour of games and contests.

Miss Sharon Vagg was a weekend visitor at Princeton with Mrs. Myrtle Duckett.

Mr. and Mrs. Alec Williams, Mr. and Mrs. James Walker and Mrs. Alfred Monk with daughter Louise have returned to Vancouver after attending the Conley-Hutchinson wedding Saturday evening in St. Saviour's Anglican Church.

Constable Earl Dugate, RCMP and Mrs. Dugate, were here from Jasper to spend last week visiting the former's parents, Mr. and Mrs. George Dugate, Hastings Avenue. Other visitors

### Oriental Splendor Reflected in New Spring Jewelry

The newest jewelry is strongly Oriental in design and color, and is an intrinsic part of the spring fashion picture. Multi-colored "uncut" simulated stones are strung on double-link gold chains with matching bracelets and earrings.

Plated silver beads alternated with "uncut" pink stones are another new-look, as well as combinations of gunmetal and silver, gold and silver. Real-looking gold chrysanthemums, roses, lilies, and other flowers with lustrous finish make impressive pins.

## Serve Roast Pork With Barbecue Sauce

How often do you roast a loin of pork and say to yourself, "I wish I could do something different to this meat."

A roast of pork is always a favorite with the family, particularly in the wintertime. To accomplish that "something different", try cooking your roast with a chef-special barbecue sauce, highlighted by a package of onion soup.

This is a sauce quick and easy to make. When used to baste the roast, it will give the pork a distinctive, tangy flavor that will make the dish a culinary triumph and it's one recipe you'll want to use often.

**BARBECUED LOIN OF PORK**  
4 to 5 pounds loin of pork  
Salt and pepper  
1 recipe barbecue sauce  
Rub roast with salt and pepper.

Place on open rack, fat side up. Bake at 325 deg. F., basting frequently with barbecue sauce until meat is tender.

**BARBECUE SAUCE**  
¾ cup water  
¾ cup vinegar  
3 tablespoons packaged onion soup  
2 tablespoons sugar  
½ teaspoon pepper  
1 teaspoon salt  
1 tablespoon prepared mustard  
1 thick slice lemon  
¾ cup butter  
½ cup ketchup.

Combine water, vinegar and onion soup (just as it comes from the package). Stir in remaining ingredients, except ketchup. Heat and simmer for 10 minutes. Stir in ketchup. Makes about 2 cups of sauce.

## Calgary Columnist Wins CWPC Contest

TORONTO (CP) — Esther Henning of Calgary today was announced winner of the \$300 first prize in the Canadian Women's Press Club 1958 beauty and fashion writing competition, sponsored by Elizabeth Arden among CWPC members.

Miss Henning's winning story was an "Easter parade feature" which appeared in the Calgary Herald. She is associated with radio station CKXL, Calgary.

Zena Cherry of Toronto won the \$200 second prize for a feature on old-time fashions that appeared in the Globe and Mail.

Honorable mentions went to Mrs. A. B. McCall, London, Ont., Winnifred Mather of Vancouver and Mrs. M. Fortier of Quebec City.

**HOUSEHOLD HINT**  
A perfume spill should be mopped up immediately to avoid discoloration of a wood surface. Dab the area lightly with ammonia to restore the finish.

## SPRING HEADLINES

BY ALICE ALDEN

Billie the bonnets that just seem to sing of spring provide the antidote to late winter blues and wardrobe weariness. Beguiling and bonnie is this flirtatious profile hat of gold-colored antique Milan straw. Little Carnegie decks out the stepped-up crown with an orange poppy and a black velvet band. Shown with a golden wool suit, it would also do right by one in black.

**CABBAGE CARAWAY**  
One of the best treatments for cooked cabbage is a sauce made by heating sour cream and seasoning it with salt, ground black pepper and whole caraway seed. Spoon over hot cooked wedges.

## Mission Circle Will Sponsor Film Showing

Colored slides taken in Europe, First Baptist Church to hear an address by Miss Hazel Merritt, a returned missionary from Bolivia. A program dealing with the missionary work of the Baptist Church at Kitimat was presented by Mrs. Walter George. Assisting her were Mrs. Vincent Gordon, Mrs. A. Doerksen, Mrs. H. Godding and Mrs. John Bowen-Colthurst.

Another interesting feature was the relief map of Kitimat made by the Explorers Club under the leadership of Mrs. E. P. Corner and Mrs. D. H. Tully. Refreshments were served at the close of the meeting by Miss Muriel Young.

**HOUSEHOLD HINT**  
In cooling home-canned goods, make sure that either jars or tins are spaced far enough apart to let air get at all sides. Never set hot jars on a cold surface. Use a rack or folded cloth.

## EXTENSIVE PROGRAM

## Loan Cupboard Among Many Red Cross Welfare Services

Reports submitted at the annual meeting of the Penticton and District Branch of the Canadian Red Cross Society testified to the extensive program dedicated to the general welfare of the public here as well as in other centres throughout the world.

Foremost among local Red Cross services is the loan cupboard where equipment for the sick room may be borrowed on a short-term plan. Mrs. Leighton Travis, a registered nurse, has been in charge of the cupboard here.

It was noted in her report that wheelchairs were in the greatest demand during the past year, and at the present time are all out on loan. There has been a steady demand for other articles throughout the year including gatch beds, mattresses, crutches and many bedside articles.

**SICKROOM EQUIPMENT**  
All the articles in the loan cupboard are there as a service to the citizens of the entire district. The only obligation when borrowing equipment is to return it within six weeks, but the loan may be renewed, if required for a longer period.

In concluding her report, Mrs. Travis reminded those interested that there is no charge for this service, and anyone in need of any article in the cupboard may contact her by phoning 4298, and she will be glad to arrange the loan of equipment required.

**VOUNTEER WORKERS**  
The loan cupboard is only one

## Naramata Players Will Stage Comedy

NARAMATA — A modern three-act comedy, The Chalk Garden, by Enid Bagnold will be produced by the Naramata Players in the Poplar Grove community hall March 6 and 7. The scene of the amusing play, which introduces an element of mystery and suspense throughout the lively plot, is set in an old English manor house and its garden.

Kitty Wilson has been cast as the mysterious Miss Madrigal, whose past is obscure, and who has been engaged as a companion for teenager Laurel, played by Helen Donald.

Mrs. St. Maugham, Laurel's grandmother with whom she lives, will be played by Val Morche, and Ethel McNeely has been cast in the role of Olivia, mother of Laurel.

Audrey Gilman is the pretty nurse to a 90-year-old butler who remains bedridden in an upstairs room of the decaying manor house, once a setting for gaiety and wealth. Muriel Reading and Ruth Riley play the parts of two young women who are applicants

for the position of companion to Laurel.

The male roles in The Chalk Garden are being played by Cyril Rayner as the judge, an old family friend, and John Banford as the man servant. Nadine Oliver is directing with the assistance of Gottfried Morche.

Owing to the special setting and large area required in staging the production, the drama club has decided not to present The Chalk Garden in the Naramata hall this season as has been the practice with other plays. The stage in the Poplar Grove hall lends itself to the double scenery necessary in the play.

## NIFTY KNITWEAR

BY VERA WINSTON

Knits are natty for resort wear. Here is a good two-piece for Florida or a cruise and, later on, for hometown wear. Winter roses in pink with green foliage are knitted into the sweater blouse top. A dark green, soft, glove leather belt is slipped through at the lower waist. The straight skirt is lined.

## Summer'd LA Will Purchase 71 Crosses

SUMMERLAND — The Silver Cross Fund of the Ladies' Auxiliary to the Canadian Legion has made great progress, Mrs. Ann'e Johnson reported at the February meeting. With Mrs. J. A. Reid's help, Mrs. Johnson said that the project had grown so that 71 crosses had been ordered. Miss Lois Reid donated two copper pictures to the society to assist.

It was a shower meeting and everyone donated gifts for the spring sale.

Mrs. Frank Young was appointed to convene serving the Guide Mother and Daughter Banquet on February 27.

Mrs. E. B. Gerrard will convene the Father and Son banquet for the Cub Association on March 9.

March is the birthday month of the organization so a potluck supper for members and their escorts will be held. The entertainment committee for this event is comprised of Mrs. W. C. McCutcheon, Mrs. William Milne and Mrs. Frank O'Leary.

Mrs. R. F. Richards won the raffle. Mrs. Harry Howard, hostess, served refreshments at the end of the formal meeting.

The United Church of Canada last year placed 252 students in Home Mission fields.

## Veeck to Buy Sox

CHICAGO (AP) — Colorful Bill Veeck, former successful owner of Cleveland Indians, was expected to exercise his option to buy into Chicago White Sox today.

Veeck called a press conference, presumably to pick up the option which will enable him and his syndicate to buy 54 per cent of the club's stock from Mrs. Dorothy Comiskey Rigney.

Veeck's option runs out Wednesday. Once he takes up the option, the deal must be closed in not less than 15 days and not more than 45 days.

If the deal is closed, Veeck will pay Mrs. Rigney \$1,750,000 in cash. Another \$950,000 will be paid in escrow and will be paid to Mrs. Rigney under three separate stipulations.

The other 46 per cent of stock in the club is held by Mrs. Rigney's brother Charles.

## Darts and Ping-Pong Tournay at Legion

Brotherly love certainly was not in evidence at a recent dart tournament held at the Canadian Legion, when Jerry Rozander, pulling no punches, ran roughshod over brother Don to take the men's singles event.

Don Rozander got back in the act in the mixed doubles, however, when he and Cary Bowes teamed up to beat Robby and Wynn Roberts.

In the men's doubles, Harri Croombs and Robby Roberts combined to set down Bill Kaines and Joe Lemiski and grab off the doubles championship.

The ping pong tournament held at the same time saw Wally Morgan win over Bill Pollock, to take the men's singles event and Bill Pollock and Lorne (Zero) McNair team up to beat Jerry Rozander and Frank Metcalfe in the doubles.

Winners of a billiard tournament which was held at the same time have not been decided, several games having yet to be played.

The tournament events in all sports were well contested and the Legion intends to feature more of the same type of thing in the future.

## Legion Come From Behind, Trim Flyers

In midweek hockey last night Flyers took a four goal lead to have Legion come storming back in the last two periods, ram in five goals and go on to win 5-4.

The other game was strictly no contest with Beavers hammering Rotary 8-0.

Flyers opened fast, slipping three unanswered goals in the first period and with McNeil getting his second goal of the night in the first minute of the second period went ahead 4-0.

Then Legion came to life and for the rest of the game monopolized the play, rapping in five goals while holding Flyers scoreless, to take the decision 5-4.

Ewing was the big man for Legion, scoring a hat trick followed by Zeacock and Klaus with singles. McNeil scored two for Flyers, Brent and Goodman picking up one each.

In the second game Morgan three, Caruso two, Wish two and Pylatuk one.

## MONDAY'S FIGHTS

By THE ASSOCIATED PRESS  
New York—Billy Hunter, 183½, Detroit, outpointed Bob Baker, 218, Pittsburgh, 10.

Philadelphia—Len Matthews, 135, Philadelphia, stopped Ray Lancaster, 138, Spartanburg, S.C., 2.

Baltimore—Wayne Bethea, 20, New York, knocked out Warren (Boom Boom) Lester, 183, Bel Air, Md., 10.

Providence, R.I.—Paul Pender, 163½, Brookline, Mass., stopped Joe Shaw, 165, New York, 5.

Tampa, Fla.—Angel (Robinson) Garcia, 136½, Havana, outpointed Henry Ferguson, 140½, Bahamas, 10.

Sydney, Australia—Bill Todd, 146½, Australia, outpointed Sandy Manuel, 144½, Nigeria, 12.

Honolulu—Rocky Kallings, 144½, Manila, stopped Billy Brown, 140, Oakland, Calif., 9.

## GHOST POINT MAKES DIFFERENCE

MONTREAL (CP)—The supposed three-way tie for the National Hockey League's scoring leadership vanished today with appearance of the league's official statistics. Andy Bathgate of New York Rangers is still top man.

Bathgate officially has 65 points, Bernie (Boom Boom) Geoffrion of Montreal Canadiens and Eddie Litzenberger of Chicago Black Hawks have 64 each.

This official unhooking of a tied triumvirate will come as a surprise to newspaper men—to say nothing of the Boomer and Big Lit. There's a single assist involved.

REPORTS CONFLICT  
When Boston Bruins played in New York last Wednesday, the announcement on a goal scored by New York's Red Sullivan gave assists to Camille Henry and Bill Gadsby. It was so carried on press circuits and in New York newspapers.

But it turns out that the official scorer's sheet, received at NHL headquarters, showed Bathgate with more goals, in case of ties, Bucyk, Boston

The hectic battle for scoring honors has also brought about a two-way tie for fourth place. Gordie Howe of Detroit Red Wings and Dick Moore of Montreal are bracketed at 61 points.

Moore is the league's top goalgetter with 30, one more than Bathgate. Howe has scored 25.

Montreal's Jean Beliveau has a hoisty seven-point production last week and is in sixth place with 56 points on 26 goals and 30 assists.

SWITCH TACTICS  
Incidentally, in the listing of the NHL has reversed its field. Instead of the player with the greater number of goals getting preferred billing, the league now gives preference to the fellow who has played fewer games.

## WINNERS OF SUMMERLAND BONSPIEL

The Dick Topping rink of Summerland defeated Bill Carse of Pentiction 6-4 to take the A event in the Summerland Curling Club's annual bonspiel. Shown above, Dick Topping of Oliver, skipped a Summerland rink composed of, from left, Casey Davis, lead,

Bill Hopkins third, skip; Dick Topping, and Roy Conrad, second. Winners in the other events were, B event, Clow of Pentiction, C event, Halquist of Summerland, D event, Hines of Pentiction. (Photo by Ron Wilson)

## Favorites Upset in In Highschool Curling

CALGARY (CP)—The opening two rounds of the Canadian high school curling championships were filled with surprises and upsets. One thing stood out: Alberta will be tough to beat.

Johnny Trout's Edmonton rink breezed through the first two rounds Monday with apparent ease, edging a tough Prince Edward Island foursome 8-7 and trouncing Saskatchewan 16-6.

The victories put Alberta in the lead of the 11-round robin tournament, a game ahead of Ontario and Manitoba who have played only one game.

Biggest upset was an 11-10 extra-end defeat hung on defending champion Northern Ontario by Nova Scotia, a relatively inexperienced rink not expected to offer much opposition to Tom Todd's Fort William veterans.

LOSE TO B.C.  
After knocking over the champions in the first round, the Nova Scotians, skipped by Wayne Rhodenier of Bridgewater, fell apart when they met British Columbia in the second and went under 10-6.

Manitoba, which drew the bye in the first round, played to its expected form and beat Newfoundland 10-6. The Winnipeg rink, skipped by Jack Holmstrom, a participant in last year's men's Dominion final, fell behind 3-0 after the first two ends but recovered in time to take over the lead with a three-ender in the fifth and a single in the sixth.

Ontario trimmed British Columbia 10-3 in the first round and drew the bye in the second. In other first-round action New Brunswick defeated Quebec 10-3 and Saskatchewan defeated Newfoundland 9-6. In second-round play Prince Edward Island needed a three-ender in the final end to beat Quebec 11-9.

MAKES COMEBACK  
Northern Ontario recovered from its first-round defeat and trimmed New Brunswick 14-8. The eastern rink was never in greater contention and scored its last four points on the final end.

The results leave Alberta on top with two wins, Ontario and Manitoba second with a win each in as many games, Nova Scotia,

Saskatchewan, Northern Ontario, New Brunswick, British Columbia and Prince Edward Island with 1-1 records, and Newfoundland and Quebec with no wins in two games.

The Alberta curlers, and in particular Trout, were standouts. Trout, a 17-year-old making his first appearance in the Dominion final, combined takeouts and draw shots to perfection.

The slowest and most methodical curler in action Monday, Trout fell back on a deadly takeout for most of his end-winning shots. Alberta was to get its stiffest test today when it meets Manitoba in the third round starting at 2:03 p.m.

OTHER ACTION  
In other third-round games Northern Ontario goes against Prince Edward Island, last year's runner-up, British Columbia meets New Brunswick, Nova Scotia plays Ontario and Saskatchewan meets Quebec. Newfoundland drew the bye.

The fourth round, to start at 8 p.m., has New Brunswick meeting Ontario, Saskatchewan playing Northern Ontario, Manitoba against Quebec, Alberta against Newfoundland and British Columbia meeting Prince Edward Island. Nova Scotia has the bye.

No one in history ever has propelled himself that high—indoors or outdoors. The world outdoor record is 7-1 by Russia's Yuri (Elevator Shoe) Stepanov. Thomas aims to erase it.

The amazing 17-year-old Boston University freshman cleared seven feet for the second time in three weeks in the New York Athletic Club games Saturday and just missed 7-14.

"But I think I'll do it at the American Athletic Union championships," said the six-foot-four Thomas.

After clearing seven feet—he is still the only man to make the height indoors—Thomas tried for 7-14. He missed all three tries, but barely touched the crossbar on the second effort.

Thomas' mark is certain to be recognized by the AAU. When he jumped seven feet for the first time in the Millrose meet last Wednesday, officials forgot to measure the crossbar as required by the rules. This time, a horde of them raced to the bar as soon as John went over. Tape measures appeared from all over. It was official.

Art Clarke's 319 was good for the men's high single and he also grabbed off high three with an 812 score.

In Monday Mixed League, Herald Angels took high single and high three scoring 1043 and 2810.

Men's high single was rolled by Walter Kostuk with 288 and Al Patterson with 734 took high three.

Lady winner was Denise Deldrich with a 244 high single and 587 high three.

Ladies high single went to Stella Swift with 285 while Helen Wickham took high three scoring 742.

U.S. High Jumper Sure of New Record

NEW YORK (AP) — John Thomas calmly predicts he will high jump seven feet, 14 inches in the United States indoor track and field championships Saturday.

No one in history ever has propelled himself that high—indoors or outdoors. The world outdoor record is 7-1 by Russia's Yuri (Elevator Shoe) Stepanov. Thomas aims to erase it.

The amazing 17-year-old Boston University freshman cleared seven feet for the second time in three weeks in the New York Athletic Club games Saturday and just missed 7-14.

"But I think I'll do it at the American Athletic Union championships," said the six-foot-four Thomas.

After clearing seven feet—he is still the only man to make the height indoors—Thomas tried for 7-14. He missed all three tries, but barely touched the crossbar on the second effort.

Thomas' mark is certain to be recognized by the AAU. When he jumped seven feet for the first time in the Millrose meet last Wednesday, officials forgot to measure the crossbar as required by the rules. This time, a horde of them raced to the bar as soon as John went over. Tape measures appeared from all over. It was official.

## Bantam Basket Tournay Slatd For March 7

Les Wiseman of the Pentiction Amateur Basketball Association announces that plans for the first annual Bantam Basketball Tournament scheduled for the Pentiction school gymnasium, Saturday, March 7 are well underway.

The tournament is open to entries from Kelowna to the border. This annual tournament is to start at 1 p.m. in the afternoon and will last until a winner has been declared that evening.

There will be no break during the supper hour as sandwiches and cocoa will be supplied to those participating.

Tickets for the tournament will go on sale this week. Fifty cents is the charge for the approximately nine hours of basketball being played by these fifteen and sixteen-year-old boys.

Students will be charged only twenty-five cents. Proceeds will be used to defray expenses of the Association during the past season.

## CURLING DRAW

WEDNESDAY, FEB. 18

7 p.m.—1, Bertram vs Cranra, 2, Bauer vs Lang; 3, Mather vs McKay; 4, Parnley vs Davison.

9 p.m.—1, Kenyon vs Perry; 2, Day vs Douglas; 3, Brochu vs Dirks; 4, Hunter vs Volden.

It was learned this morning that Freightways and Royals will probably not play the deciding game of their three game playoff tonight.

Kelowna wishes the game played on Thursday but Pentiction says no, that it should be played tonight or Saturday.

Up to press time no decision had been reached and the whole situation is up in the air.

Pentiction Freightways, will travel to Kelowna tonight bent on removing the Kelowna Royals from the playoff scene, when they take on the Kelowna team in the deciding game of a best of three series.

Both teams have won one game and will be really up on the bit for this one, which will decide whether they hang up their shovels for the season or not.

Freightways are hurting a little, with both Chuck Preen and George Drossner nursing sore right thighs suffered in last Friday's game.

This is a curious ailment for basketball players and should be banished out by the fact that two of the Royals probably have sore shooting eyes.

A little more serious was the Feb. 5.

## Vees Win 6-3, Spoil Night for Hryciuk

KAMLOOPS (CP) — Pentiction Vees, backed by the spectacular goaltending of Don Moog, defeated Kamloops Chiefs 6-3 here Monday Night before 1,100 fans in an Okanagan Senior Hockey League game. It was the last game of the regular season for both teams.

Kamloops playing-coach Billy Hryciuk, a 10-year veteran of the league, was honored by the fans with gifts, cash, tributes and telegrams.

Dave Gordichuk led Pentiction with two goals while singles went to Jack Durston, Yogi Kraiger, Tick Beatty and Don Slater. Scoring for Kamloops were Gerry Prince with a brace and Bud Evans with a single.

First period ended 3-2 for Pentiction with the Vs extending their lead to 5-3 in the second.

Prince scored unassisted at the one-minute mark while Chiefs missed an easy job by Durston and Vs tied the score. Kraiger angled in from the side at 7:18 and a minute later Evans skate finished the period scoring, trapping the puck in his end and break-

ing away. Prince got his second goal at 1:19 of the second period with a backhand from out front. It was his 100th point of the season and his last of the game.

At 3:45 Gordichuk got his first and Slater finished the period scoring at 11:53.

Gordichuk ended the scoring at 5:14 of the third period. Chief's outshot Pentiction 42-28 but couldn't click against Moog.

Nine penalties were handed out, six to Kamloops including three to defencemen Ted Leboda.

Hryciuk, his wife and three children, were honored between the second period in a ceremony which saw a truckload of gifts driven into the rink. Letters and wires of congratulation came from Father Athol Murray of Wilcox, Sask., Prime Minister John Diefenbaker, Justice Minister Fulton, Senator Sydney J. Smith and Highways Minister P. A. Gagliardi.

Visibly moved, Hryciuk thanked the fans and said most credit was due his players who elected to remain in Kamloops and play hockey despite a new year's week crisis which saw a group of local

businessmen take over the club from former owner Kenny MacKenzie.

Vernon Canadians ended their regular Okanagan Senior Hockey League schedule Monday night with a convincing 5-3 victory over Kelowna Packers before 750 fans in Vernon.

Best-of-seven semi-final play-off series between Vernon and Kamloops Chiefs, and Kelowna and Pentiction Vs, begin Wednesday night.

Walt Trentini led Vernon scoring with two goals. Willey Schmidt, Sherm Blair and Odie Lowe got singles.

Kelowna marksmen were Harry Smith, Greg Jablonski and Bob Bergeron.

## OSHL PLAYOFFS WEDNESDAY: CHANGE IN OFFICIATING

used in all Okanagan Senior Hockey League playoff games, league president Bill Nicholson announced here Monday night.

Best-of-seven semi-final series open Wednesday night at Kelowna and Vernon with the Packers meeting Pentiction Vs and the Canadians the Kamloops Chiefs.

Other dates for the semi-final series:

Friday, Feb. 20 — Vernon at Kamloops; Kelowna at Pentiction.

Saturday, Feb. 21 — Pentiction at Kelowna; Kamloops at Vernon.

Monday, Feb. 23 — Kelowna at Pentiction; Vernon at Kamloops.

Wednesday, Feb. 25 — Pentiction at Kelowna; Kamloops at Vernon.

Friday, Feb. 27 — Kelowna at Pentiction; Vernon at Kamloops.

Saturday, Feb. 28 — Pentiction at Kelowna; Kamloops at Vernon.

Eighth games will be scheduled for Monday, March 2 if necessary.

## Quarter-Final Draw For U.K. Soccer

LONDON (Reuters)—The draw for the quarter-finals of the English Football Association Cup competition, to be played Feb. 28, was made here yesterday. The draw is:

Arsenal or Sheffield United vs Tottenham Hotspur or Norwich City

Blackpool vs Luton Town

Birmingham City or Nottingham Forest vs Bolton Wanderers or Preston North End

Aston Villa vs Burnley.

## Freightways Out To Win Semi-Final

## Vancouver Women Curlers Favored

VICTORIA (CP) — Joy Mclellan's Vancouver Business Girls' Curling club Monday established themselves as the favorites to win the British Columbia Women's curling title.

Curling impressively under the guidance of Miss Mclellan, the Vancouver rink eased to two wins to take the lead in the round-robin final among seven zone champions to decide the provincial representative in the Western Canada Championships at Brandon March 9-12.

Against Irene Frazer and her Vancouver entry in the first draw Monday, Miss Mclellan broke the game open with a triple on the fifth end to take an 8-3 lead. She was never seriously threatened and went on to win final score was 12-3.

In the second draw, Miss Mclellan quickly established a 6-0 lead and ended with a 13-3 win over Mrs. Theo Young of New Westminster.

Two other rinks also ended the day unbeaten, but both played only once. Mrs. Ina Hansen of Kimberley rink trimmed Mrs. Margaret Tegart of Salmon Arm 13-3.

Mrs. Thelma Owen of Kelowna pulled the comeback of the day in her only game. Trailing Mrs. Young 8-0 after three ends and 10-5 after six, she scored four on the seventh, three on the eighth and one on the ninth and 10th for a 14-10 win.

Mrs. Tegart and Miss Frazer both won their second games to

# Pictorial Review of World News

## INTERNATIONAL LOVE AFFAIR

While Loran Sheffer, 23, listens glumly, Pauline Giles, 24, Eastcote, Middlesex, England, tells newsmen how she left her English boyfriend in the lurch to accompany Sheffer on a plane ride

to the United States. She says she didn't want to come and wants to go home. He says she came willingly.

## AUDREY CAN STILL SMILE

Actress Audrey Hepburn gives out with a big smile despite her cracked back after arriving by special plane today from Durango, Mexico. The actress was injured last week when she was thrown from a horse while working on a movie on location near Durango. Her husband, actor Mel Ferrer, bends over the injured actress. Ferrer, who accompanied his wife on the seven-hour flight from Durango, said he thinks she'll be walking in three weeks. (AP wirephoto).

## OPENS NAVAL SCHOOL

Admiral of the Fleet, Earl Mountbatten of Burma Britain's First Sea Lord who later this year will become Britain's Chief of Defence Staff, is seen here trying on a pair of magnetic induction ear-

phones after opening the Royal Naval School-boys Exhibition in London recently. The ear-phones need no wires and enable the wearer to walk about unhindered.

## SHEATHED IN ICE

The ice-coated Quebec government's new marine training ship Torlundy arrives in Halifax after a rough ocean crossing into Hal-

ifax. As ice builds up a vessel may become top heavy and roll over. (CP wirephoto)

## WORKING AGAINST FLOOD

Workers at Mount Vernon, Ohio, speed to build a sandbag levy as Dry Creek once again defies its name and bursts its banks. This photograph was taken around ten o'clock one morning a few days

ago. At noon the area was completely closed off from the rest of the city as rampaging waters broke down the sandbag dykes and roared through city streets. (AP wirephoto)

## TRANSPORTATION FOR SPRING THAW

The springlike thaw which has turned many Windsor area streets into huge puddles got to serious proportions on the extreme western end of historic Sandwich street. Near the spot where Sir Isaac Brock took off to invade Detroit in 1812,

a motorist, Barney Almasy, calls for aid from a man in a boat, Nick Boychuk. Mr. Boychuk helped numerous motorists past the spot Friday. (AP wirephoto)

Denny Vetteh, 25, lost his right arm at the shoulder after a fall at the age of five but he made good use of his left one. His reputation as an outstanding wing-forward in British Columbia rugby earned him a place on the 23-member B.C. all-star team which was to tour Japan starting late in February, 1959. (CP photo)

## CALM IN A TROUBLED WORLD

While the rest of the world has its share of trouble Lake Okanagan lies calm midst its winter surroundings. One beached boat sits as

a reminder of warm Spring days which, despite the present snow, cannot be far away. (Photo by Owen-Templeton)

## Deaths

**McGINNIS** — Mrs. Christina McGinnis of Ashnola, B.C., passed away at the Penticton Hospital on Sunday, February 15th, 1959, at the age of 78 years. She is survived by one son George, one sister Mrs. Harry Squak of Cavston, B.C., eight grandchildren and six great-grandchildren. Requiem mass will be held in Hedley Mission Roman Catholic Church on Wednesday, February 18th at 10:00 a.m. Reverend Father Cullinane celebrant. Burial in the Ashnola Cemetery. Penticton Funeral Chapel in charge of arrangements. R. J. Pollock and J. V. Carberry, directors.

## In Memoriam

**DEACON - ROGERS** — In loving memory of our dear sister and aunt Erma Louise Deacon - Rogers who passed away Feb. 17, 1958, age 35 years. What would we give if we could say

"Hello" Erma in the same old way  
To hear your voice, to see you smile  
To sit and talk with you awhile  
And in the still of the night,  
When the world is asleep  
It is then dear Erma, that I silently weep

I miss you so,  
I may not go scatter flowers daily  
Where you are sleeping neath  
the sun and dew,  
But if one lives through pain  
and weary hours,  
I send the flowers there, dear  
one for you

So much that now seems incomplete  
You left for me in my poor way  
to do  
God has you in his keeping  
I have you in my heart.  
—Ever remembered by Elfreda,  
John, Seggie and Mary, Frances  
and Patricia.

**DEACON-ROGERS** — In loving memory of our dear daughter and sister Erma Louise, who passed away February 17th, 1958. Peacefully sleeping resting at last.  
The world's weary troubles and trials are past.  
In silence she suffered in patience she bore,  
Till God called her home to suffer no more.  
—Ever remembered by her loving parents, sisters and brother, sister-in-law and brothers-in-law.

# Producer Recalls 'Our Gang' Series

By BOB THOMAS  
HOLLYWOOD (AP)—The recent deaths of two former members of "Our Gang"—one shot in an argument over \$50—adds to the legend that the famed little rascals have been ill-fated in later life.

Not so, says Hal Roach, who fathered the series that has delighted two generations, first in movie theatres and now on TV. "During the years, there were 176 kids in the 'Our Gang' series," the veteran producer remarked. "Naturally, some of them have gotten into trouble or had bad luck."

"But if you took 176 other kids and followed them through their lives, I believe you would find the same percentage of them have troubles in later life."

There are many of the gang who have turned into happy and respected citizens, including doctors and lawyers here in Los Angeles.

**HOW IT STARTED**  
Roach reminisced about how he founded the series, back in 1921. "One day I looked out my window at a bunch of kids argu-

The annual meeting of the Dominion Council of the Woman's Association of the United Church of Canada will be held in Toronto May 10-15 at Timothy Eaton Memorial Church and Emmanuel College.

## Front Interest Stressed in London Fashions

by EDDY GILMORE  
LONDON (AP)—The chairman of London's fashion designers opened this capital's spring collection Tuesday with emphasis on the bosom.

"I have trained my floodlight," said Victor Stiebel, "on geographically the front top half of the body—in other words, the bust."

As hundreds of women and not a few men looked on, he explained: "Busts—not with great enthusiasm during the daytime, but with a fireworks display after dark."

Ronald Patterson introduced what he described as "The Shrug"—a casual, easy fit. He said the right knee length for spring and summer is one that does not show the knee when milady is walking.

Necklines in the showings were set away and sometimes collarless.

In his suits, Patterson stressed little short jackets with slightly moulded fronts and gathered bands from the waist at the back.

Short evening dresses belovied out at the back and hugged the figure in front.

There were big romantic evening dresses, some of them just barely showing the ankle.

Stiebel's suits were still casual, but the jackets were an inch or two longer. Fronts were shaped and backs straight.

Opening lead—king of hearts.

An extraordinary line of defense succeeded in defeating declarer in this hand played in a rubber bridge game.

West led the king of hearts on which East played his jack! The East-West pair were zealous disciples of the suit-directing convention, a method of defense which frequently conflicts with the age-old custom of playing a high card when it is desirable to have a suit continued and a low card as a stop signal.

West decided that it was impossible for East to have started the hand with only a singleton or doubleton jack of hearts, because this would mean that South had been dealt either five or six

hearts, a possibility that was not consistent with South's bidding.

West interpreted the jack of hearts play as a signal for him to shift his attack elsewhere, specifically to the higher ranking of the two side suits, diamonds and clubs.

He led a diamond. Declarer conscious of the danger with which he was now faced, took a diamond in dummy and led a low trump.

East did not wait. He rose promptly with the ace of spades and returned a heart to West's ace.

Backing his judgment of what he conceived to be the actual situation, West took the ace of hearts and returned a diamond. East ruffed, giving his side its fourth defensive trick, and the contract was down one.

It was a delicate operation, carried off successfully, East's imaginative defence could not have succeeded without perfect co-operation by West. As so often happens in defensive play, the triumph was one of partnership rather than one of individual accomplishment.

Without the jack of hearts play on the opening lead, declarer would almost surely have made the contract. If west had continued at trick two with the ace of hearts or made the normal shift to the ten of clubs, declarer's chore would have become easy. He would have lost two hearts and a spade and scored ten tricks. But brilliant defense made South's cause hopeless.

Tomorrow: An unusual safety play.

An unidentified man is held down by another man and a girl as he writhes in pain while waiting for an ambulance after he escaped from a fire in a dance hall at Kingston, Ont. An oil stove, knocked over by two men during a fight, set fire to the hall injuring at least 35 panic-stricken persons. (CP wirephoto.)

## Markarios May Block Agreement on Cyprus

**By GARVEN HUGGINS**  
LONDON (AP) — A roundtable conference on the plan to give independence to Cyprus opened today amid indications that Archbishop Markarios might block speedy agreement.

Greek Prime Minister Constantine Karamanlis hurriedly took a plane from Athens to accept Foreign Minister Evangelos Averoff from Athens for a night on his way to London by special plane to be on hand for the wind-up of the conference.

**HINGES ON MAKARIOS**  
But Markarios, apparently backing at a promise that Britain, after granting freedom to the republic of Cyprus, would retain sovereignty over the military bases she has established during her 81-year rule of the island.

The archbishop also was believed objecting to the restriction that Cyprus must forever remain independent and could never unite with Greece. Makarios had led the Greek Cypriots' original demand for Enosis — union with Greece — which the Greek government finally abandoned in hopes of ending the nearly four years of bloodshed on the island.

The black-bearded churchman had not given full public endorsement to the plan. But his earlier public statements had seemed favorable to it.

After the agreement was reached last week and Karamanlis explained it to him in Athens, Makarios told reporters it laid "the foundation for an immediate and final solution to the Cyprus issue." Arriving in London Sunday for the roundtable conference, he expressed hope "a solution is on the way to being achieved."

**MEETS WITH MAKARIOS**  
The importance of the archbishop's role was underscored Monday night when Sir Hugh Foot, the British governor of Cyprus, called at his hotel for a second time Monday and talked with him for 75 minutes.

## ILO Session on Timber Industry Called 'Useless'

**MONTREAL (CP)** — A delegate to the Canadian Lumbermen's Association convention says an international labor organization meeting on the timber industry last December in Geneva was the most "interesting, frustrating and useless" gathering in his experience.

J. W. McNutt of Temagami, Ont., Monday accused the ILO, which discussed the industry with employers and delegates from government and labor, of "loading" proceedings in favor of workers' opinions. And he questioned the practical value of the ILO.

Reports of subcommittee sessions and drafts of their recommendations had been drawn up by the ILO permanent staff even before the meeting started, he said.

Mr. McNutt also criticized the Canadian government delegates for aligning themselves against their own country's employer delegates.

**RECITES INSTANCE**  
"We witnessed on one occasion the unexpected alignment of our two Canadian government delegates with the six Russian and the six Yugoslav delegates against their own country's employer delegates—ourselves," he said.

Earlier, Ronald H. Robinson, president of the association, urged Canadian lumbermen to explore more thoroughly the possibility of increasing exports to Britain and other Commonwealth nations.

During 1958 exports to the United States increased considerably, but "exports to Great Britain, British Commonwealth and other countries declined," he said.

J. H. Jenkins, chief of Forest Products Laboratories of Canada, which operates under the northern affairs department, said lumber is losing ground to other construction and decorative materials because of inadequate promotion efforts.

"The total board-foot consumption of lumber per house unit has been greatly reduced within the past decade," Mr. Jenkins said. "This means that the increased volume of house construction has not been reflected in the use of lumber to the same extent as in former years."

### WORLD BRIEFS

**NEW VATICAN BROADCAST**  
VATICAN CITY (AP) — Pope John Monday inaugurated Japanese language broadcasts over Vatican Radio. In a prayer said in Latin and beamed to Japan, the Pope asked God to give the Japanese people "now and always protection from suffering, the abundance of Your providence, the happiness of prosperous events, and all that is noble and good."

**PLEES NORTH KOREA**  
SEOUL (AP) — A private in the Communist North Korean Army who fled across the border was granted asylum in South Korea today. Hwang Yung Kyung, 21, abandoned his guard post on the frontier before dawn Sunday and dashed across the military demarcation line near Panmunjom.

After two years serving as director of the United Church's National Evangelistic Mission, Rev. Dr. W. G. Berry has returned to his former post as Associate Secretary of the Board of Evangelism and Social Service.

## 12 Injured in Train Collision

**LONDON (CP)** — Two trains collided today in thick fog at suburban Dartford.

First reports said 12 persons were injured.

Ambulances and fire trucks went to the scene.

There were no reports of deaths.

The crash occurred in the same general area as Lewisham, where a train crash in December, 1957, killed more than 90 persons.

## Snow Avalanche Kills Five in Newfoundland

**ST. JOHN'S, Nfld. (CP)** — A poisoning when the car in which she and three friends had sought refuge was buried in snow in the city's Memorial Park.

The process of digging out of the 21-foot-high snowdrifts stirred up by Monday's violent storm will be long and hard.

Communications and power generally have been restored. But most streets in this capital city and provincial highways are impassable.

A snowslide killed five persons in two houses at Chain Rock near the harbor entrance here. Nine other occupants were trapped, one of them for 12 hours. The avalanche victims were Mr. and Mrs. James Piercy, 42 and 38 respectively, Mrs. S. Vincent, 76, teen-ager Theodore Wells and 100-year-old Isiah Dawe.

Police said teen-ager Shileia Balush died of carbon monoxide

## Castro Swings Into Action as Cuba's Premier

**HAVANA (AP)** — Fidel Castro swung into action as Cuba's premier today, officially charged with the responsibility as well as the power to carry out the social revolution he shaped as a soldier.

The bearded rebel fighter's first moves as head of the government were to cut by half his own pay and those of cabinet ministers approve reopening of gambling casinos and establish a new national lottery.

No date was set for reopening the casinos, long one of Cuba's most alluring attractions to tourists. The plush parlors were closed with the flight into exile of Dictator Fulgencio Batista on New Year's Day. Once back in business, Cuban players will be barred and the tables will be under government control. Under Batista some were operated by American racketeers.

**CABINET RECKERS**  
With Castro presiding for the first time, the cabinet sat into the early hours of the morning and also voted to:

- Suspend the long-time Cuban practice of "secret expenses" for government officials;
- Set up an effective civil service system;
- Create a Cuban merchant marine;
- Develop the fishing industry and nautical sports;
- Authorize members of the rebel army to wear olive green uniforms while the provisional government rules.

## Fog Covers 28 Counties

**LONDON (Reuters)** — A fog belt today covered 28 counties in southern England and lay in patches along the Scottish border in the north.

Two trains collided in dense fog near the London suburb of Dartford, injuring 18 persons.

In London visibility was down to five yards in some places while clear patches were reported in other areas. Outgoing flights from London airport were running late and incoming flights were diverted to other airports.

**LINER STILL DELAYED**  
At Southampton on the south coast fog continued to prevent the liner Queen Elizabeth from docking. Arrangements were made to land the passengers in tenders today. The 83,000-ton liner, on a voyage from New York, has been waiting to dock since Monday.

Paris reported sunshine today as the fog belt moved across the channel.

Two British ships collided in dense fog this morning in the North Sea off Lowestoft, an English east coast port. The smaller ship, the 1,108-ton Seaford of London, was listing badly as she headed for Yarmouth.

## Legislatures Wading Deeper Into Sessions

**By THE CANADIAN PRESS**  
Canada's legislatures waded deeper into their 1959 sessions Monday, dealing with topics ranging from labor legislation in Nova Scotia to charges in British Columbia of racketeering among unions.

A royal commission report tabled in Nova Scotia proposes broad revision of the Workmen's Compensation Act, including higher payments to those injured on the job and to dependents if the injuries are fatal.

Judge Alexander McKinnon, chairman of the commission appointed by the Progressive Conservative government, said in the report he has no doubt persons suffering from neuroses should be as eligible for compensation as the physically disabled.

**CRITICIZES UNIONS**  
W. N. Chant, Social Credit public works minister, prompted a strenuous cross-fire in the British Columbia legislature when he said:

"The original and legitimate intent of the union movement in some instances has been warped and twisted into a weapon in the hands of the wrong people. This is utterly wrong."

The Ontario legislature will begin night sittings tonight, apparently to catch up on the time lost in the uproar over Progressive Conservative cabinet ministers' profits from trading natural gas pipeline shares.

Only 36 bills have been introduced so far out of 170 scheduled for presentation. There was little business Monday.

**AIM FOR START**  
Liberal Health Minister M. L. Bonnell told the Prince Edward Island legislature he hopes national hospital insurance will be operative by Oct. 1. He proposed the island's share be raised through volunteer premium payments and there appeared to be no major objection.

Dr. J. D. Ross, Social Credit health minister, told the Alberta legislature that nursing home care for the chronically ill is expected to be written into the province's national hospital insurance plan April 1. Municipalities, he said, will be assessed an additional mill on the tax rate to pay for the extended coverage.

## Beck's Tax Evasion Trial To go to Jury

**TACOMA, Wash. — (AP)** — The income tax evasion trial of Dave Beck, once one of the most powerful men in the labor movement, is expected to go to a jury Wednesday.

The government spent 57 days, entered thousands of exhibits and put 115 witnesses on the stand in its effort to prove the former president of the International Teamsters' Union evaded \$240,000 in income taxes for 1950-53. Total cost of the trial itself has been estimated at more than \$203,000.

Carl Houston, whose Seattle firm prepared many of Beck's tax returns and helped establish his bookkeeping system, took the stand Monday. He entered into

Government lawyers and internal revenue service agents had never seen the records which have been held by Beck's lawyers as privileged documents.

Testimony, filling more than 10,000 pages, has covered financial transactions ranging from the weekly grocery bill to awnings for the luxurious Beck home on Lake Washington to real estate manipulations involving thousands of dollars.

Day by day government lawyers introduced testimony designed to show these purchases were made with union funds, money the government contends was taxable.
